SECTION 1 — WHO IS A NTANDOMODS TRAINER?

A NtandoMods trainer is patient, practical, and passionate about lifting Zimbabweans out of unemployment through real skills. You are not just a teacher — you are a career changer.

Trainer Requirements

- Completed NtandoMods course (or equivalent experience)
- Patience and strong communication skills
- Basic computer proficiency (Word, Excel, internet)
- Willingness to learn and update knowledge

Trainer Code of Conduct

- Arrive 15 minutes before class every day
- Never cancel a class without 24-hour notice to students
- Treat every student equally regardless of age, background, or ability
- Never accept gifts or favours from students in exchange for marks

- Report any concerns about students to management
- Maintain student records confidentially

SECTION 2 — LESSON PLANNING

The NtandoMods 4-Part Lesson Structure

Every lesson must follow this structure:

Part	Time	Purpose
1. Warm-Up	10 mins	Review yesterday's content with 3 quick questions
2. Teach	90 mins	New content delivery
3. Practice	60 mins	Students practice the new skill
4. Check	20 mins	Quiz or verbal check of understanding

How to Write a Lesson Plan

LESSON PLAN TEMPLATE

Course: _____

Module/Day: _____

Topic: _____

Duration: _____

Trainer: _____

Date: _____

LEARNING OUTCOMES (what students will be able to DO):

1. _____
2. _____
3. _____

RESOURCES NEEDED:

- _____

WARM-UP QUESTIONS:

1. 2. 3.

MAIN CONTENT (outline):

PRACTICAL ACTIVITY:

END-OF-LESSON CHECK:

HOMEWORK (if any):

SECTION 3 — TEACHING METHODS

Method 1: Demonstration First

Show students how to do something before asking them to try it. > “Watch me do this first, then you try.”

Method 2: Think-Pair-Share

Ask a question. Students think alone (1 min), discuss with partner (2 mins), share with class.

Method 3: Role Play

Essential for customer service, cashiering, and communication skills. Rotate roles so everyone practices both sides.

Method 4: Peer Teaching

Once a student masters something, ask them to teach a struggling classmate. This reinforces both students' learning.

Method 5: Real-World Examples

Always use Zimbabwean examples: OK Supermarket, EcoCash, TM Pick n Pay, Choppies. Never use abstract foreign examples.

SECTION 4 — MANAGING A CLASSROOM

Classroom Setup

- Arrange desks in U-shape or rows facing the screen/board
- Ensure every student can see demonstrations clearly
- Keep the training area tidy and organised
- Post the weekly timetable visibly on the wall

Managing Different Learning Levels

Some students will be fast learners, others will need more time. This is normal.

For fast learners: - Give extension tasks (more complex versions of the exercise) - Ask them to assist slower learners (with your supervision) - Give them leadership roles in group activities

For slow learners: - Never shame them in front of the class - Spend additional time with them during practice sessions - Break tasks into smaller steps - Celebrate every small improvement

Handling Phones in Class

- Phones must be on silent during lessons
 - Phones are ONLY allowed for WhatsApp Business lessons
 - Students caught using phones for personal reasons lose phone privileges that day
-

SECTION 5 — ASSESSMENT & GRADING

Grading Scale

%	Grade	Description
90–100	A+	Distinction
80–89	A	Merit
70–79	B	Credit
60–69	C	Pass
Below 60	F	Fail — must rewrite

Rules for Running Examinations

1. Read all exam instructions aloud before starting
2. Ensure no student can see another's paper
3. No talking after exam begins
4. If a student is caught cheating — remove paper, record incident, report to management
5. Stay in the room for the entire exam duration
6. Collect ALL papers before students leave

Marking Guidelines

- Mark consistently — use the marking guide for every paper
 - Write brief feedback on each paper (not just a score)
 - Return papers within 3 working days
 - Keep all marked papers on file for 1 year
-

SECTION 6 — STUDENT WELFARE

Signs a Student May Be Struggling

- Missing classes frequently
- Not participating in activities
- Falling asleep in class

- Submitting blank or incomplete assessments

What To Do

1. Speak to the student privately — never in front of class
2. Ask open questions: “How are you finding the course? Is anything making it hard to attend?”
3. Offer solutions: catch-up sessions, payment plans, flexible timetables
4. Report serious concerns to management

Creating an Inclusive Environment

- Use simple English — many students are not first-language speakers
 - Allow questions in Shona or Ndebele if students struggle to express themselves in English
 - Avoid jargon — always explain technical terms
 - Celebrate diversity — students come from different backgrounds
-

SECTION 7 — RECORD KEEPING

Daily Register

Take attendance every day. Use the standard register sheet. Students who miss more than 20% of classes cannot sit the exam without management approval.

Trainer’s Daily Log

After each day, write 3 sentences: 1. What did I teach today? 2. What did students find difficult? 3. What will I do differently tomorrow?

Assessment Records

Keep a mark sheet for every student, every assessment. Submit copies to management at end of each month.

SECTION 8 — CERTIFICATES & GRADUATION

Who Gets a Certificate

Only students who: - Attended at least 80% of classes - Passed both written exam (60%+) AND practical assessment (60%+)

The Ceremony

Even for small groups — hold a simple certificate ceremony. It matters enormously to students. Invite family members if possible. Take photos (with permission).
